

PROJECT TIMELINE

From Start to Finish

STEP
1

Initial Discussion

This may involve a single meeting or multiple sessions, depending on the number of people or committees participating.

STEP
2

Design

The initial design phase can take from a single day to up to two weeks, depending on complexity and whether a landscape architect is involved.

STEP
3

Delivery

Typically requires around 8 weeks.

STEP
4

Construction / Installation

Generally takes 5 to 10 working days, depending on the project's size and the type of safety surfacing being installed.

STEP
5

Grand Opening

We recommend scheduling the event 2 to 4 weeks after the playground is completed to account for potential weather delays, missing parts, or other unforeseen issues.

From start to finish, the entire process typically takes 3 to 6 months, depending on the project's complexity and the involvement of landscape architects.

At Churchich Recreation & Design, we partner with you every step of the way to ensure a safe, high-quality, and innovative experience for your patrons. We value our customer relationships and are committed to nurturing them long after your project is completed.
